

Doctors and Nurses

Draw a tooth on yellow paper. Allow the children to brush the tooth by using an old toothbrush and dipping it in white paint. The kids will love brushing their pretend tooth.

Talk about the importance of brushing teeth to get them clean.

Make a medical kit-cut out medical bags out of black construction paper. If you have extra time, glue a white box with a red cross. Then allow the kids to stick band-aids, glue cotton swabs, gauze and tongue compressors to the paper. Talk about how doctors use these items.

Sing along

Music

Sung to the tune of Row, Row, Row Your Boat

Brush, brush, brush your teeth
At least two times a day
Cleaning, cleaning, cleaning, cleaning
Fighting tooth decay

Floss, floss, floss your teeth
Gently around your gums
Merrily, merrily, merrily, merrily
Flossing can be fun.

Rinse, rinse, rinse your teeth.
Keep them clean and bright.
They'll be healthy, they'll be strong
If you treat them right.
